2 Specialists Desert U. S. for 'Iron Curtain'

BY LEWIS GULICK

WASHINGTON (AP) — Two American intelligence specialists were presumed by the Pentagon today to have gone behind the Iron Curtain.

The two are Berion P. Mitchell, 31, and William H. Martin, 29, employed since 1957 as mathematical analysts at the National Security Agency at nearby Ft. Meade, Md.

NSA is a supersecret defense unit which intercepts radio signals and works on communications intelligence 24 hours a day. Mathematics is one tool used for breaking secret codes.

The Defense Department broke silence late Friday on the whereabouts of Mitchell and Martin, who mysteriously disappeared July 4.

An official statement said it must be assumed that there is a likelihood that the two "have gone behind the Iron Curtain."

It added that an investigation indicated "information in their possession if revealed could be in no way prejudicial to the security of U.S. communications" and neither man had "access to classified information about American weapons or defense plans."

A Pentagon spokesman declined to say whether the pair had other information of value to the Reds, such as on U. S. code-breaking techniques and on NSA operations. Nor would he say what Communist country they might have gone to or by what means.

The statement said the two had worked "in limited areas of communications statistical work."

The department confirmed earlier reports that Mitchell and Martin had been traced to Mexico City and then to Havana.

In El Paso, Calif., Mitchell's father said "I certainly don't believe" the Pentagon's assumption that his son had slipped away to Red territory.

Emily P. Mitchell, a Eureka, Calif., woman, said "I'll never believe it unless Berton told me so himself, and I have been with him long enough to know that he was in sound mind."

Martin's father, an Ellensburg, Wash., meat packing executive, said his son was "just a good plain American."

John Martin said he knew of no ideological bent that could explain his son's disappearance. He said his son was "just a good plain American."

Girl, Four Children Die in Fire

MIDDLEBOURNE, W.Va. (AP)

A teen-aged girl and four children burned to death today in a pre-dawn fire that destroyed two homes in the tiny town of Shirley in Tyler County.

The five victims, as well as the two mothers of the children, were asleep in one room of the home of Mr. and Mrs. Bert Ferrebee.

The dead were the Ferrebees' two children, Walter, 9, and Dorina, 8; Janet Dotson, 4, and Billie Dotson, 1½, and Maybelle Wadsworth, 19. The Dotson children and Miss Wadsworth were from West Union.

Daisy Dotson and the girl were visiting the Ferrebee family. Neither of the women's husbands was at home. Ferrebee was at work at a steel plant at East Liverpool, Ohio.

Mrs. Dotson, in a New Martinsville hospital with minor burns, said she awoke, felt the heat and smelled smoke. Tyler County is along the Ohio River in northwestern West Virginia.

Mrs. Dotson related from her hospital bed that she heard cries of the children inside the burning home while she was screaming for help.

No Hay Shortage in This Field

DUE TO THE HOT DRY WEATHER, FARMERS ARE reporting a shortage in the annual hay crop in this area. This is not true on the Frank Douglas farm on Highway 67 East across from the Arkansas State Police Station where Mr. Douglas expects to harvest more than 4,000 bales on this first cutting. With a good rain in the near future another good crop can be harvested. This first crop is being sold and Mr. Douglas expects to save part of the second crop for his own use. Billy Joe Butler is doing the cutting.

Economic Aid to Foreign Nations During the Past Six Years Cost U. S. \$12 Billion

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The United States and other industrial countries have poured 18 billion dollars worth of economic aid into underdeveloped nations during the past six years. The American total was over 12 billions.

But the State Department says greater effort is needed to fill growing requirements, particularly in Asia and Africa, and to meet the expanding economic challenge of the Soviet Communist bloc.

In a report to the Senate Foreign Relations and House Foreign Affairs committees released Thursday night, the department summarized aid totals since 1954 from 15 industrialized nations of the Free World. The report concluded "efforts so far have not been adequate to fill the requirement."

The United States has supplied two-thirds of the economic assistance covered in the report for a total of \$12,025,000,000. Fourteen other countries, including Britain, France, Canada, Australia, Japan and West Germany provided loans, grants and other assistance totaling \$5,904,000,000.

The report to Congress emphasized that the United States is doing everything possible to get the other industrialized countries to increase their aid. But it said that in view of the vast needs such increases could not be counted on to bring any reduction in the U.S. effort.

He made the comments to a Bangor Daily News reporter during a visit at the home of former Secretary of the Air Force Thomas K. Finletter.

Co-op Studies Bids on New Steam Plant

LITTLE ROCK (AP) — The Arkansas State Electric Co-operative is studying four bids it has received for a turbine for its proposed Ozark steam generating plant.

Harold L. Oswald of North Little Rock, president of the co-ops' ratificative, said the bids were of such an informal type that none could be considered as an apparent low.

Oswald identified the four concerns the co-operative is negotiating with as General Electric, Westinghouse, Allis-Chalmers, and a Swiss firm, Brown-Boveri.

He said that the purpose of bids at this time was largely to determine what firms would be interested in building and installing a turbine.

The co-operative still has not asked approval of the proposed Ozark plant from the Public Service Commission.

Oswald said the application was being delayed until contract complications for sale of the power are settled.

Hiroshima Oversomes Big Blast

By C. YATES MCDANIEL

WASHINGTON (AP) — Fifteen years ago tonight an explosion obliterated a city, signaled the end of a global war and spawned a lethal fear that still clouds the future of mankind.

In the new Japanese city of Hiroshima people of all faiths will pause for a minute of silent prayer at 7:15 p.m. Eastern Standard Time tonight—Saturday morning, Aug. 6, Japan time—in memory of some 70,000 who were killed outright and many others who were injured in the explosion of the first atomic bomb.

Elsewhere in the world the anniversary may pass virtually unnoticed. But it will be remembered by the 10 surviving American servicemen on board the B29 "Enola Gay."

They delivered the payoff of a World War II program that cost the United States two billion dollars. Since then, many times that amount has been spent in making vastly more lethal nuclear weapons or in seeking to devise means to counter them.

Only three men aboard the bomber that ushered in the military atomic age are still on active duty. The pilot, now Brig. Gen. Paul W. Tibbets Jr., commands the Strategic Air Command's 5th Air Division at MacDill Air Force Base in Florida.

The B29's bombardier, Lt. Col. Thomas W. Ferber, is squadron electronics maintenance officer at MacDill. The flight engineer, M. Sgt. Wyatt E. Duzendary, is stationed at Barksdale Air Force Base, Shreveport, La.

Navy Capt. W. S. Parsons, who directed the arming of the bomb while the B29 was in flight between the island of Tinian and Japan, has since died. He was an admiral at the time of his death.

Of the crew members who have since left military service, one works with a candy manufacturer, three are sail-men, one is a draftsman, one works with a scientific instrument manufacturer, three are salesman, one is in the ironies industry.

Postmaster of Year an Arkansan

Judges selected her over winners from other states for service to city, post office and the league.

Landing Tea mto Join 7th Fleet

HONG KONG (AP) — The U.S. Navy announced today a Marine battalion landing team is being assigned to duty aboard in Asian waters "to further readiness of the 7th Fleet."

The announcement did not suggest the move was motivated by any new emergency. It appeared to be part of long-range U.S. planning.

The announcement by Vice Adm. Charles D. Griffin, commander of the 7th Fleet, said the move will provide the Marine units involved—which will rotate every two months—with amphibious training.

Pierce won the Democratic nomination over incumbent Henry Ross in the July 26 primary.

Emergency UN Meet Called by Secretary

By ANDREW BOROWIEC

LITTLE ROCK (AP) — The Congo (CAB) — U.N. Secretary-General Dag Hammarskjöld was hastening back to New York today for an emergency Security Council session after scrapping plans to send troops into the rebellious province of Katanga.

Hammarskjöld called the council meeting on the turbulent Congo for Sunday night after his trouble-shooter, Ralph J. Bunche, warned him entry into secessionist Katanga would bring bloodshed.

Bunche became convinced of the danger after conferring in Elisabethville with Katanga Premier Moise Tshombe, who vowed he would use force to keep out U.N. troops.

Hammarskjöld's decision not to enter Katanga and replace Belgian troops now patrolling the province came amid ominous rumblings from two quarters.

The Soviet Union drummed out a warning that if the U.N. fails to get all Belgian troops out of the Congo, forces should be sent in from other countries "which would be ready to contribute."

And ministers of the central Congo government talked loudly of "sending our troops to Katanga" if the U.N. keeps stalling.

Observers said Hammarskjöld's breakdown on Katanga might have averted bloodshed, but they predicted it might spell trouble for the United Nations on several counts.

"We are back where we started," said one U.N. diplomat glumly. "Anything may happen now."

U.N. officials grimly awaited reaction of the Congolese government which has insisted the new republic's No. 1 problem is to keep copper-rich Katanga in the fold.

They recalled a warning by Congo Premier Patrice Lumumba that his government would consider radical measures if Belgian troops are not out of his country by the time he returns Monday.

Lumumba, on his way back from an aid-seeking mission to the United States, Canada and African countries, previously made gestures toward asking the Soviet Union for military help to oust the Belgians.

Angry East-West debate was expected to erupt when Hammarskjöld goes before the Security Council. The Soviets have served notice they will press their demand that U.N. troops be yanked out and other forces sent in unless the Belgians are ousted at once.

McClellan Talks About Platform

LITTLE ROCK (AP) — Sen.

John L. McClellan (D-Ark) said here last night that there are many revisions of the Democratic platform he will not support.

He wouldn't elaborate at this point, but obviously some of the plans he objects to deal with civil rights.

McClellan added that since the Democratic National Convention at Los Angeles he had "found no general enthusiasm for the platform as a whole."

McClellan was not a delegate but attended the convention as an observer.

He predicted that any attempt to bring up additional civil rights measures when Congress reconvenes this month would result in a prolonged and highly controversial session.

He said that Southern Democratic senators would unite against any move for new stringent rights bills.

Barring such a development, McClellan said he expected Congress to be in session about three weeks or a month.

McClellan said he didn't have any plans for political speeches. He said he had three out-of-state speaking engagements but that they would be non-political.

He said he had three out-of-state trips planned in Congress to drive for "three pieces of must-legislation, primarily for political considerations."

He listed these as: "Final enactment of federal aid to education, a wage and hour law and some method of old age medical assistance."

McClellan was interviewed shortly before he left Little Rock to return to Washington.

Folks Born Under Sign of the Lion, July 23-Aug. 22, Are Usually Good Humored

By MARY ANITA LASETER

A lion may be the symbol of the Leo personality, but these folks possess a good sense of humor. The ones born from July 23 through August 22 come in this group.

Looking at their horoscope, we find that these people have a jovial nature which attracts many to them. Also, they are naturally courteous and considerate of others. Much of their success in personal, social, and economic matters depends upon their personality.

To illustrate success in various fields we find listed among Leo personalities: Bernard Baruch, Orville Wright, Amelia Earhart, Henry Ford, and Herbert Hoover. Going from transportation and big business to the theater we find people such as Robert Taylor, Alfred Hitchcock, and Mae West. Francis Ashbury and David Crockett were also Leo personalities and outstanding in their fields.

Since such a person possesses very little, if any, fear in his or her nature, it is understandable why the list includes so many dynamic people who have had a forceful and commanding attitude when necessary. It also explains the sports greats who fall into this category.

Esther Williams is a swimming star born under the sign of Leo. Amos Alonzo Stagg, the famous American football coach, and numerous baseball heroes are in this group. The latter include "Cowboy" Reese, Lou Dierker, "Casey" Stengel, " Hank" Bauer, and Christie Mathewson.

If you were born under the sign Leo, you have considerable power to influence others, you have a very generous nature, and you are quite sensitive and easily hurt. Also, you have a great amount of pride, are reliable, and show a sincerity of purpose.

These people are usually sensitive, so the group includes those in a sensitive profession—music. Among such folks are Koussevitzky, Rudy Vallee, Sigmond Romberg, and, yes, Caesar Petrilla. From musicians of the past like Francis Scott Key, Claude Delussay, and Garrie Jacobs Band, to more modern ones like Victor Young, Abe Lyman, and Itay Bloch many were born under the sign of the lion.

Though they have a noble character, Leo people have a sharp temper. This quick temper is forceful, but in the main, it doesn't get the better of them. This is probably due to good will and determination that is modified with lofty ideals and sympathy. This interesting personality is apt to show an independent nature that does not like to lean on others, and at the same time a disposition that, at times, can be quite jealous in matters of love.

A Leo personality is quite studious with good powers of observation and perception. Perhaps that is why so many writers are in this horoscopic division. Famous names like George Bernard Shaw, Sir Walter Scott, Percy B. Shelley, and Alfred Lord Tennyson are in this group not to forget Guy de Maupassant, Booth Tarkington, Emily Bronte, Herman Melville, and even Ogden Nash.

According to official astrology, today, August 6, will be a good day for those born under the sign of Leo the lion. But if all of us go through each 24 hour span of time with a this-is-going-to-be-a-good-day attitude, it is more apt to be just that.

Youth Sunday Planned at 1st Baptist

Tomorrow will be youth Sunday at First Baptist Church. The intermediate and young people will be filling places of responsibility in the Sunday School and in both morning and evening services. The observance of youth Sunday will bring to a close the annual youth week activities.

Dr. McClannan will bring a special message to the young people of the church in the morning service on the subject, "The Challenge of Goliath." The Sunday evening service will feature the film "Silent Witness," a color motion picture about a teenage who broke his promise to God.

Norfolk Dam Cracks to Be Watched

LITTLE ROCK (AP) — Massive Norfolk Dam near Mountain Home has some fine cracks in it. It's nothing serious, Army Engineers say, but still "it's the kind of thing you want to watch."

So the engineers have hired Dr. Roy W. Carlson and Raymond Davis, University of California professors, and Byron W. Steele, a Coral Gables, Fla., engineer, to take a look at the situation.

Col. A. R. Jacoby, Little Rock District engineer, said the three men are experts in "the structural behavior of concrete."

They spent Wednesday and yesterday prowling through the bottom of the dam along with Engineer officials from Washington, Dallas and Little Rock.

The cracks, Jacoby said, are from 1-100th of an inch wide. "They're in conduits in the bottom of the dam which are used to drain water from the reservoir in time of high water."

Applause also greeted the warning that "anyone of the revolution would soon feel the punch of the ailing Fidel Castro."

"They will understand that we are going to have Fidel around a while," Paul declared.

The younger Castro said the prime minister will address the closing session of the Latin American youth tonight—"intelligently making an effort." That indicated Fidel is not completely recovered from what has been described officially as a lung infection.

Woman Says She Killed 3 Children

COVING, N. Y. (AP) — A nervous mother, described as nervous since the birth of a son seven weeks ago, had admitted killing the boy, his brother and a sister, state police say.

Police said Theresa Yuccette, 30, made the admission Thursday in a note she handed a trooper guarding her at Columbia Memorial Hospital in Hudson. She does not speak English, and wrote in German.

"It was God's will," a German speaking hospital employee quoted her as saying later.

Police said no motive was established.

Mrs. Yuccette slashed her wrists and throat with a knife Wednesday night after killing the children, police reported. Her condition was described as serious.

The couple, natives of Yugoslavia, came to this area a year ago.

Friend of Aviators Dies at Age of 85

WASHINGTON (AP) — Mary E. Tusch, 85, known to hundreds of great fliers as "Mother Tusch," died Thursday at her home here after a stroke.

Mrs. Tusch, who befriended Charles A. Lindbergh, Amelia Earhart, Billy Mitchell and numerous others, lived from 1915 to 1950 in Berkeley, Calif., across the street from the School of Military Aeronautics, University of California.

Ten years ago she donated to the Smithsonian Institution a collection of tokens of affection given her by the fliers over the years.

Mrs. Tusch, born Dec. 25, 1875, in Rantoul, Kan., was an honor member of the Women Fliers of America, the Veterans of Foreign Wars, the National Aeronautic Assn., Exchange Club and the League of American Penwomen.

She is survived by two daughters, Irene T. Garber, with whom she lived at the time of her death, and Mrs. Ovington Ross of Evans, Ill.

No Doubt Now Cuba Has Gone 'Communism'

By RICHARD VALERIANI

HAVANA (AP) — Fidel Castro left no doubt today Cuba has moved solidly into the Soviet economic camp as he welcomed Moscow's aid offers and hinted defiance of any objections. He also hailed Soviet pledges of military support.

"We don't have to fear an economic blockade," the younger brother of Prime Minister Fidel Castro declared in a midnight speech that ran nearly three hours. "They the Soviets say all that we sell them and they sell us what we need."

Appearing on Fidel's national night TV spot, the premier, defense minister, aimed a slap at the Organization of American States which is slated to meet Aug. 16 to discuss Soviet interference in the Western Hemisphere and other problems.

"We are grateful for aid and we accept—no question—whenever aid of Soviet artillerymen (rockets) first despite what the OAS says," Castro told a fairly cheering studio audience.

Fresh from visits to Moscow and Prague, he said Soviet and Czechoslovak officials had promised him that all Cuban orders would get top priority. He implied this meant military material as well as other goods.

No strings were attached to Soviet aid offers, he declared, adding that the United States had never given help without demanding concessions.

Castro blasted the U.S. capitalist system which he said demands that Americans "throw food into the sea" to maintain prices, rather than share it with the world's starving millions.

Frequent bursts of applause greeted Castro's high praise of Soviet Premier Nikita Khrushchev and the Soviet Union.

Applause also greeted a thinly veiled warning that "anyone of the revolution would soon feel the punch of the ailing Fidel Castro."

U. S. Spends \$715,000 to Test a Drug

WASHINGTON (AP) — Government auditors today questioned the manner in which federal researchers spent \$715,000 for test samples of a new experimental cancer drug.

The General Accounting Office said the National Institutes of Health awarded fixed price contracts for the drug without a protective provision for adjusting prices should they prove to be unreasonably high in relation to actual costs.

GAO, the auditing agency of Congress, identified the new drug as 5-fluorodeoxyuridine, known as 5-FUDR.

Its report to congress quoted a pamphlet issued last May by the National Cancer Institute as saying 5-FUDR has "produced dramatic results in treating patients with a wide variety of tumors."

The report did not identify the drug firm because a GAO spokesman said the criticism was aimed at NIH, not the manufacturer.

The initial price of \$60,000 a kilogram dropped to \$29,000 a kilogram when the NIH contracted for five kilograms at a total price of \$145,050, GAO said.

GAO said NIH was not sufficiently diligent in trying to obtain a breakdown of the manufacturer's costs in producing the drug and the contracts contained no provisions for price redetermination.

Challenging the GAO complaint, NIH contended that it had secured

Proclamation

Draft Proclamation
Social Security Week

The American social security system, which promoted the well-being of individuals and families, has served the Nation for 25 years.

First becoming law on August 14, 1935, the Social Security Act now provides income and services to individuals and families. It helps to keep families together and to free people from fear and want.

Many in this community have helped and are being helped by one or more of the program established by the Social Security Act. These include Federal old-age survivors' and disability insurance; unemployment insurance; public assistance for the needy; the old, the blind, the disabled, and children without parental support; and maternal and child health, crippled children, and child welfare service.

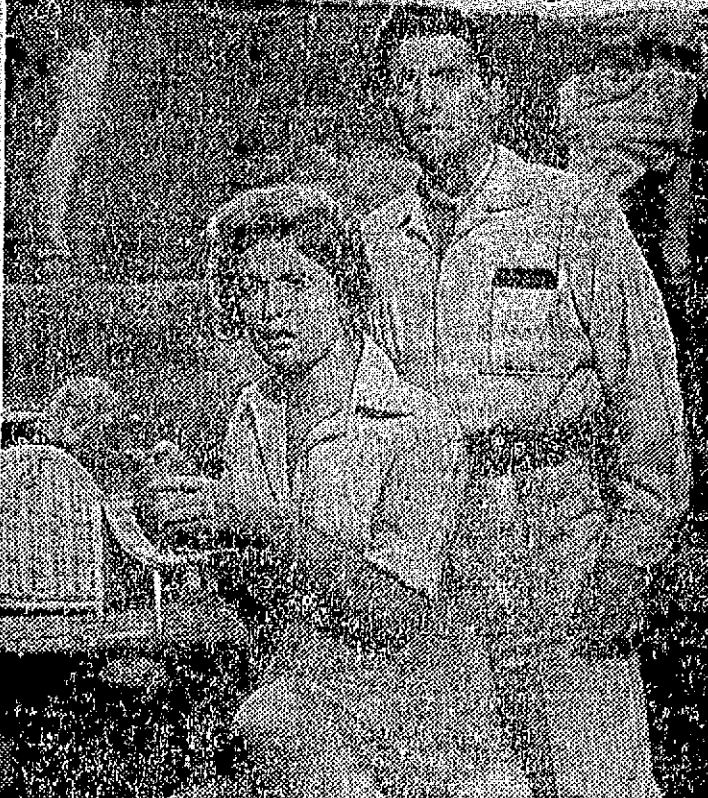

Now, therefore, in the 25th year that our national social security has been in existence, I Sam Andrews, Mayor of Hope, in recognition of the service of social security to the county and to this community, proclaim the week of August 14 through August 20 as Social Security Week in Hope, and a further proclaim August 14 as Social Security Day in Hope. I urge full participation by the people of Hope. In the events which have been planned in celebration of the 25th Anniversary of the Social Security Act.

Quick Action Saves Life of Youth

LITTLE ROCK (AP)—Quick action by a power company employee saved the life of Kenneth Bynum when the 16-year-old boy was held for several minutes as a human ground wire for an electrical circuit.

Bynum became lodged between a gas stove and a wall yesterday while trying to install a washing machine in the home of E. C. Reid. He grounded an accidental 100-volt electrical circuit between the stove and some gas pipes. A charge of 110 volts passed through him.

Jim Charles, an Arkansas Power & Light Co. serviceman, was alerted to the trouble by radio via the Fire Department. Charles found the youth unconscious. He moved the stove to free Bynum and started artificial respiration.

Bynum had swallowed his tongue. A policeman helped Charles in the resuscitation, and the boy began breathing.

At a hospital, the boy regained consciousness. He was listed in satisfactory condition today.

Bynum is employed by an appliance store where his father, K. W. Bynum, is a salesman.

The youth's mother is a nursing supervisor at University Medical Center. When she was summoned to the emergency room last night, she saw her son being brought in on a stretcher.

MORTY MEEKLE

THE STORY OF MARTHA WAYNE

Whosoever Will may come to Church may come to God...

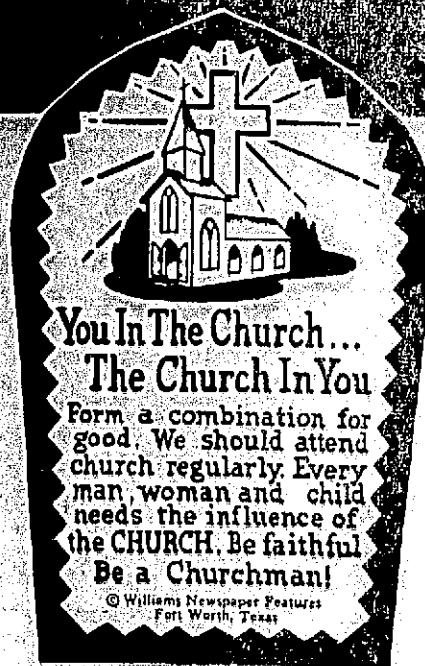

IF A
MAN
PRAYS
RIGHT

CAN
HE
LIVE
WRONG?

IT WAS SAID in the long ago that we brought nothing into this world and that we shall take nothing out. That is true for all material goods. It is false in the realm of the spirit. *You and I are writing day by day the story that must forever be our history.* We are garnering the harvests of the years and storing them in the granaries of heaven. As women and men come to the closing hours of life on the earth, they gather up the "fruit of the spirit." *Love and joy and peace and longsuffering are not material. They are eternal goods.*

HOW RICH ARE WE? When we stand before the heavenly cashier and ask for a statement, what will the little card carry as our record? *Shall we hold in our hands a blank white card, with a dark background?* Will the servant of the Most High say that our account stands at zero? How dreadful, when we discover we have been working and living for naught! But why wait? Most of us can guess what the bank account really is. *Let's face that question now, for tomorrow we must know the final statement.* Shall I make sure of my holdings in the divine treasure house? What is my harvest?
